

Exhibit Information

Station 4 Center Stage— By the One NOAA Image

Here you will find:

1. The opportunity to share important information about NOAA at the macro level including Oceans, Fish, Weather, Research, Satellites.
2. Handouts include One NOAA factsheet, NOAA webcard.

For NOAA specific talking points:

The National Oceanic and Atmospheric Administration ([NOAA](#)) conducts research and gathers data about the global oceans, atmosphere, space, and sun, and applies this knowledge to science and service that touch the lives of all Americans.

NOAA warns of dangerous weather, charts our seas and skies, guides our use and protection of ocean and coastal resources, and conducts research to improve our understanding and stewardship of the environment which sustains us all.

A Commerce Department agency, NOAA provides these services through five major organizations:

1. National Weather Service
2. National Ocean Service
3. National Marine Fisheries Service
4. National Environmental Satellite, Data and Information Service
5. NOAA Research

In addition, NOAA research and operational activities are supported by the Nation's seventh uniformed service, the NOAA Corps, a commissioned officer corps of men and women who operate NOAA ships and aircraft, and serve in scientific and administrative posts.
